

# Term Three Year One

We are off racing in year one this term. In the first few weeks we learnt about language to direct people and we had a pirate sneak into our class and leave us a treasure map. We followed all the directions accurately and found our treasure, a chest full of popcorn, YUM YUM!! We were so enthusiastic about pirates that we made our own pirate maps, come and check them out in our classroom.

In HASS we have been discussing natural, constructed and managed features. We identified some of these within our school community and then we got to go down to Cantwell Park to find some other examples.

In English we designed some awesome monsters out of dough and collage material and then we wrote a description about them. We have also been learning how to write a recount and will be looking at report writing in the coming weeks.

In religion we have been discussing how God has made us special and different from each other. We have also compared the different groups we belong to and why it is great to be a part of a group.

Investigations are always fun in our class. This term we have an airport operating and we are flying off to places such as America and Bali. Some of us have written a travel blurb about a place we might like to visit in the world and we are learning to measure distances to see which is the longest and the shortest.
