31st July 2014

One to One iPad Information Meeting
For Parents with students in Year Four and Five 2015

Dear Parents and Guardians

I strongly encourage you to attend next week’s iPad Parent information meeting for our current Year Three and Four students. As you are aware, our current Year Five and Six/Seven students have one-to-one iPads. We as a school, and also as a region agreed to include Year Four students from 2015 to allow students a three year time period in primary school to utilise iPad technology.

An information evening will be held on Thursday 7th August at 6pm, for parents/guardians of students who will be in Year Four or Five next year. The meeting will be held in the library meeting room.

The information evening will cover the philosophy behind our decision and what you as a parent/guardian will need to do to help prepare your child to be ready for the first day of Term One, 2015. The PRA Imaging representative will be present to outline how you can order online, as well as leasing options. Jodie will also provide an overview of iPads in the classroom and briefly touch on cybersafety.

Kindly fill in the form below indicating whether you will be attending our information evening.

Rika Andres
Assistant Principal
